

TALISFORGE · FIRST RUN OF FIFTEEN

WOOD KIT

Oak, cedar, apple, and hazel, cut in Glastonbury. A scribe will only bruise the grain. Brand these. A wood-burning pen is not in the wrap — buy a simple one from a craft shop until we stamp our own.

IN THIS WRAP

- 2 oak — Jupiter: strength, doorways, a vow that lasts
- 2 cedar of Lebanon — the Sun: temple wood, preservation
- 2 apple — Venus: love, offering, the orchard
- 2 hazel — Mercury: letters, skill, finding
- Beeswax tapers
- Frankincense
- Linen wrap
- This leaflet · branding pen not included

THE SITTING

HOW TO BRAND

Wood is not a cheaper metal. It is another nature. Cedar will not carry a love-charm as apple will. Oak will hold a house; hazel will hold a word.

- 1 Choose the disk. Oak for honour and protection. Cedar for what must not rot. Apple for love. Hazel for letters and craft.
- 2 Open Sky-Sage. Sit in a fit hour of that planet. Rank is a ranking, not a promise.
- 3 Light the taper. Frankincense on a coal. Fumigate the disk three times before the brand.
- 4 Heat the pen. Use it with caution — away from linen, away from paper. Brand the figure in one sitting. A name, if you use one, on the reverse.
- 5 Let it cool. Fumigate three times after. Wrap. The hour is closed.

A cheap pyrography pen from a craft shop is enough. Planetary brands from this forge come later. Do not put a scribe to these disks.
